

School Auction & Group Art Projects

Unique Ideas for Classroom fundraising

Fun & Easy to do Anywhere!

An enriching opportunity for students to make the most desired item of any school auction!

Glass Art Project Kits

14" Glass Platter, 20-25 squares.
Custom size and color project kit orders
are welcome.

Students are proud to contribute
to their class project

Integrate with
Science, Art & History lessons
Supplemental information for curriculum
integration available.

Glass Art Projects
Complete Kits

How it works

- 1 Receive your kit of supplies & easy to follow instructions then assemble your collages.
- 2 Return completed squares in the provided box, we will fire your pieces in our kilns.
- 3 Receive your finished platter, ready to display, admire and sell!

All of the students will create their own small glass collages that will then be arranged and melted into one beautiful platter.

Details

Kits include all supplies, tools and instructions necessary for troops, classes, families and groups to create a variety of unique and expressive glass art pieces. Everyone can collaborate on one amazing group project and receive individual recognition for their contribution too.

Hi Kristin,

*I just wanted to let you
know the platters were a
huge success - raising over
\$10,000 for the school!
Thank you for your help
at every step of the way,
Firework Studios and
especially you were hugely
professional. I have received
requests from one parent
who would like to do this
for her child's auction next
year and another mother
who would like to just do
this with her child, this
year. So, I will continue to
spread the word!*

Many thanks,

Christina

Firework Studio Visiting Artist Workshops are endorsed by the Los Angeles County Arts Commission and LA Arts Ed.org, the first countywide directory of vetted Los Angeles arts education providers for school-day programs.
